AUGUSTA MEDICAL GROUP OPENING PRIMARY CARE OFFICE IN BUENA VISTA

FISHERSVILLE, Virginia— As a part of Augusta Health's strategic plan, Journey 2025, and its commitment to the community to expand and enhance access to outpatient services throughout the region, Augusta Medical Group will open a Primary Care Practice in Buena Vista, Virginia.

"This expands our ability to provide more conveniently located care for our growing number of patients from the Buena Vista community," says Scott Just, MD, President of Augusta Medical Group. "This is part of our larger strategy to expand access to outpatient services in the Rockbridge County region."

Construction on the medical office began in August, 2020 and is scheduled for completion in the first quarter of 2021. Renovation of both interior and exterior of the building at 2054 Sycamore Avenue in Buena Vista will result in a 3000 square foot space with six exam rooms. Staff will include both a physician and a physician assistant.

"We are very excited to become a part of the Buena Vista community," says Dr. Just. "Our new practice there will connect the people in the region to the breadth of all of Augusta Health's services. It's great to be a part of bringing our high quality care to Buena Vista."

The practice will be known as Augusta Health Buena Vista Primary Care, and will provide the full scope of primary care services.

Augusta Medical Group is the employed physician group of Augusta Health. Augusta Health is an independent, community-owned, not-for-profit hospital whose mission is to promote the health and well-being of its community through access to excellent care. Over the years, Augusta Health has been recognized by many external rating organizations: 100 Top Hospitals in America, HealthGrades' America's 50 Best Hospitals, and most recently by US News and World Report as a Best Regional Hospital, 2019-2020.
